SKILLS

EDUCATION

INFORMATICA BEHEER • SECONDARY SCHOOL

Sint-Jozef Sint-Pieters Blankenberge • 2022

- Broad IT base: Java, Xcode, HTML, CSS, JavaScript, web servers, hosting, networks and databases.
- Put me on track for a start in IT and showed me its different fields.

TOEGEPASTE INFORMATICA • BACHELOR

Howest Brugge • 2022 - 2024 (1,5 year)

- Passed 1,5 years of broad IT: software, websites, databases, servers, cyber security, SQL, Laravel, Java and professional communication.
- Also drawn to servers, networks, cyber security and AI, but chose what drives me most, web development and interfaces, and switched to Devine.

DEVINE • BACHELOR

Howest Kortrijk • 2024 - 2026 (2 years)

- Completed the first two years. Built responsive web apps with React and Astro (front-end) and Strapi (back-end).
- Worked on motion, website animations, APIs, real-time and machine learning projects (WebRTC, ML5.js), real client and group projects with Git and GitHub.

WEB DEVELOPMENT & DESIGN • GRADUAAT

Howest Kortrijk • 2026 - Present

- Final year of the front-end developer trajectory, combining web development and design, with real projects for industry partners and an internship.
- Technologies: React, Vue.js, Laravel and CraftCMS.
